

Prompts milestone 3

"I want to create a travel agency website. Can you help me create the HTML pages for the frontend? I need pages for clients, trips, bookings, reviews, and an admin dashboard."

"Can you add navigation links to all the HTML pages so users can easily move between them?"

"The website looks plain. Can you improve the styling to make it more modern and visually appealing?"

"I need JavaScript to handle form submissions and interact with the backend. Can you create a scripts.js file for this?"

"I need a backend for my website. Can you help me set it up using Node.js and Express?"

"I need API routes for clients, trips, bookings, reviews, and notifications. Can you create them?"
